

We are sure getting excited here for our golf course renovation that is expected to start in April. The original golf course designer, Robert Trent Jones II will be doing the work and the end result will be amazing! All the bunkers and surrounding areas will be totally re-done, as will the 1<sup>st</sup> green and a part of the 3<sup>rd</sup> green. The golf course will be open during construction as the work will take place in three hole segments so the impact to the golfer will be kept as minimal as possible.

Punch card: Don't forget you can buy a 10 round punch card this year, only \$45 per round - save over \$90!

Players Card: for only \$39 you get a FREE round of golf at Edinburgh USA and Brookland Golf Park plus over \$500 in discounts.

Lessons: Start the year on the right foot with lessons. Edinburgh USA has an incredible teaching staff! We have the #1 rated teacher in Minnesota by Golf Digest (Craig Waryan), we have a Top 100 teacher by Golf Magazine (Peter Krause), a former Minnesota PGA Junior Golf Teacher of the Year (Adam Guili) plus Lisa Eggleston and Andy Wiese all on one staff. Combine that with an incredible practice facility and Edinburgh USA is the place to improve your game.

### Getting Ready for Spring!

#### Adam Guili -

The movement of the lower body is vital in developing a better golf swing. We all need to get better at it and with a consistent routine every week, you will be able to do it! As you have seen ...there are all sorts of backswings but there is really only one great impact position. When the chest is facing the ball and the lower body (hips, belly button or belt buckle) are moving toward the target, then you are truly on the path to better golf shots. The swing link ([video here](#)) demonstrates how to properly move the feet, legs and hips on the downswing. I would encourage you to work on the movement in February and March with your goal to be better at it and much more comfortable by April 1st.

As we all get older our bodies slow down and we become too flat footed during the golf swing. Start rehearsing this lower body motion now and you will quickly feel a few muscles tingle since they probably have been quiet for a few months. As one of my favorite golf teachers says, "Don't be a Flat Footed Freddy....try to be an Open Oscar with the hips"

Good luck and hope to see you all soon.

I'm in the Golf Dome 6 days a week if you need any coaching.
