

Happy New Year!

We hope that you had a great holiday season and are ready for a great new year with plenty of golf!

We also have been very busy making plans for 2014 and beyond and have some exciting news!

Edinburgh USA will be starting an extensive golf course renovation in the spring. All the bunkers and surrounding areas will be completely re-done; new sand, new design, new liners and some fairway grass around the bunkers to completely modernize the course. Also, the first and third greens will be re-designed and re-grassed. What this means for the golfer is that some bunkers will be closed during your round and we will have a couple of temporary greens for the first half of the golf season. We feel the wait will be worth it as the golf course will be amazing when completed.

Those aren't the only changes. Check out what else is NEW for 2014:

- We will now sell a 10 round punch card, save \$90 on 10 rounds of golf! See website for details
- Weekend tee times will be taken 7 days in advance starting in the spring instead of 4 days. Weekday tee times will still be taken 1 month in advance
- We will have a brand new website shortly

CONGRATULATIONS to Roger Schwartz who was one of 31 people who knew the answer to our trivia question in last month's newsletter. Roger knew that Warren Schutte won the 1992 U.S.G.A. Public Links Championship here at Edinburgh USA. Roger won the drawing of all those who knew the answer and received 4 rounds of golf for the upcoming golf season!

Thanks for reading. Enjoy 2014!

Visualize Your Golf Game this Winter!

I once read a story about how a POW played golf every day in his mind while in prison. He visualized everything from the wind blowing to birds chirping. When he was released, he played his best round ever!

This visualization drill is something you can do easily every day. Choose a course that you are very familiar with and picture yourself hitting every shot. Visualize yourself walking to the tee and pulling out your driver. Imagine how your body turns and moves through the swing and how it feels when you make perfect contact. Then, picture your ball flying down the fairway. Watch yourself walking down the fairway and continue the same visualization on every shot until the ball is in the hole. Attempt to imagine every shot perfectly.

When it's time to play in the spring, keep that same mentality as you did while you were visualizing. See if it works!
